SAMSUNG

## Wash cool. Save energy.

Samsung have used their exceptional technological know-how and innovative approach to develop and design a range of quality home appliances, each with its own unique and innovative benefits, perfectly suited to you and the modern home.

Samsung's ecobubble™ technology provides a revolutionary approach to washing, delivering great results at low temperatures. Available in a range of capacity sizes. Ideal for busy families.

### Feature

Water and detergent are mixed together with air in a bubble generator. Bubbles are created and these form a cushion of foam in the base of the drum, which penetrates deep into the clothes.

### Benefit

The water and detergent are fully dissolved and are absorbed into fabrics much faster.
