## COLOUR PROFILES

**Food at the Heart**

**Your colour is Apple Green**

Always a packed fridge with food ready for any possible occasion, a biscuit drawer full to the brim and a fruit bowl overflowing with options. The kitchen is the centre of your home and is a place for family meals, friends popping over and memorable moments.

**The Entertainers**

**Your colour is Poppy Red**

Always have the welcome mat out, just in case a friend pops over. The house is ready for an unplanned guest, you like to think your place is welcoming in a very informal way. Mind you, if the Queen did stop by, you'd be ready with a cuppa and comfy chair.

**The Leave-me Be's**

**Your colours are Purple Fizz and Chocolate**

If you are a 'Leave Me Be' then chances are you're quite content in your own company. You don't need people popping over unannounced, you just want a home that feels homely for you. Is there a giant comfy seat in your house that has your name written all over it? Could you name any of your neighbours? No? Well why would you, no-one needs endless small talk in their lives...

**The Weekenders**

**Your colours are Funky Fuchsia and Lagoon**

A happy house is top of the list but The Weekenders just don't get to spend enough quality time there during the week. Long hours and night-shifts mean that, when it comes to enjoying personal space, the weekend is a winner. Comfy and relaxing during the day, impressive entertaining spaces at night.

**Children Seen & Heard**

**Your colours are Tutti Frutti Green and Jellybean Blue**

A family home where kids reign supreme. Front room a giant toy box? Fridge door a gallery of 'school art projects gone by'? Upstairs landing guarded by the latest action figure? This is your perfect environment, with special care taken to make it comfortable for all the family with play at the top of the list.

**Nesters**

**Your colours are Cafe Mocha, Smoke Grey, and Cream**

The home of a nester is quite simply a place of extreme comfort. Relaxation is at the front of your mind when it comes to every single room. No sofa or bed is free from a throw or cushion. No bath is free from a scented candle.

**DIY Supremo**

**Your colour is Jet Black**

There is nothing better in your eyes than having a sense of pride in your surroundings. No task is too big or ambitious; the home is a giant canvas for your creativity and DIY abilities. It may be tricky at the start, you may even get a little frustrated, but you'll always find a way (maybe even getting a little secret help from a passing tradesman).

**Story-tellers**

**Your colours are Marina Blue and Ocean Blue**

Always one to get the family album out when guests are over, your house is filled with souvenirs of past trips and holidays, drawings and pottery that the kids did at school and photo-frames that tell a thousand tales. With surfaces adorned with trinkets and accessories so that, when one of your guests walks through that door, they'll never be short of things to gaze at.

**Perfection Maintainers**

**Your colour is Super White**

Everything has its place and your home is a showroom. Guests are always welcome, the more the merrier, but leave your shoes at the door and make sure you use a coaster. Children and grown-ups beware of the cream carpet!

**Love Me, Love My Home**

**Your colour is Bubblegum Pink**

What do you want from a home? You want to hear what everyone else thinks, don't you? Guests are always welcome and urged to give comment on just how clean it is, how comfy the sofa is, how beautiful the table looks...
