The promotion is subject to availability of these models.

For information on availability of participating models please go in-store or check online at Argos.co.uk

The selling price shown online is the full price of the product when bought without the trade-in discount. The discount will be applied to your order when you add the following recycling service to your basket. The £9.99 cost of this service will also be discounted.

- Recycling Service - Removal of Large Kitchen Appliance 482/0011 £9.99

The trade-in offer is only applicable when a large kitchen appliance is traded in through the recycling service above. Old large domestic appliances to be collected MUST be disconnected, defrosted (for at least 24 hours) and emptied of water. We apologise that we are unable to collect American-style fridge-freezers (side-by-sides). Removal of the old appliance is only available at the same time and address as the new one is delivered. If you select the recycling service but do not have an appliance to trade-in upon delivery, we will charge your card with the value of the trade-in discount. WE CANNOT ACCEPT TRADE-IN OF USED APPLIANCES BROUGHT INTO STORE.

We can accept as trade-in any used large kitchen (built-in or free standing) appliance including the following:

- Washing Machine
- Tumble Dryer
- Washer Dryer
- Fridge
- Freezers
- Fridge-Freezer (except American-style fridge-freezers (side-by-sides))
- Dishwasher
- Cooker
- Hob

There is no need for Argos to check whether your appliance is in working order or not as we will accept the trade in no matter the condition of the appliance.
